

Written by Willie Dixon (although different versions exist)

(I Chord)

See you watching me like a hawk
I don't mind the way you talk
But if you touch me somethin's got to give **Break!**
I live the life I love and I love the life I live **No Chords**

(I Chord)

My diamond ring and my money, too
Tomorrow night these may belong to you
These girls move me at their will
I live the life I love and I love the life I live

(IV Chord)

I may bet a thousand on a bet this time
One minute later I can't cover your dime
Tomorrow night I might be over the hill **Break!**
I just want you to know, baby, the way I feel **No Chords**

(I Chord)

Oh, I'm rockin' when you pass me by
Don't talk about me because I could be high
Please forgive me if you will **Break!**
I live the life I love and I love the life I live **No Chords**

solos - 12 bar blues No quick 4

So if you see me and think I'm wrong
Don't worry 'bout me just let me go
My sweet life ain't nothing but a thrill **Break!**
I live the life I love and I love the life I live **Chord at the END**
